# PICKING THE RIGHT RECIPE:

## BUILDING A COLLABORATIVE TEAM IN WATER / WASTEWATER

**04.04  
2024**

Recipes can vary based on taste and flavor preferences, desired outcomes, and themes or goals? For example, when baking a cake, the basic ingredients remain the same and are integral to success: flour, butter, sugar, eggs. But, what if you have an allergy, an aversion, or a preference? What if you simply need more ingredients to meet complexities or goals? In design-build, every project is different, just like a recipe can be – the same recipe doesn't always work for every occasion. Join our panel of experts to discuss their best recipes for successful collaborative delivery projects.

### LEARNING OBJECTIVES

- What is collaboration and how do you define the best ingredients for success?
- How do you define the roles and responsibilities of a collaborative team?
- Explain the components of planning, concept, development, and implementation.

### PANELISTS

Andrea Cole,  
Dominion Water  
and Sanitation  
District

Sean Hewett,  
PCL

Trish Quigley,  
HDR

Zeena Kohr,  
South Platte  
Renew

### MODERATOR

Liz Minyard,  
Brown and  
Caldwell

### AGENDA

2:45pm: Registration  
3:00pm: Presentation  
4:30pm: Networking Reception @ Rockyard Brewing

### REGISTRATION

Owner \$15  
Member \$40  
Partner Association Member \$40  
Non-Member \$55  
Young Professional / Student \$30

### LOCATION

Castle Rock Water  
171 Kellogg Ct  
Castle Rock, CO
